Re: November 2023 Fire Chief's Report

I recently attended the Cal Chiefs conference in Ontario, CA with some of our Tahoe Basin Chiefs. It was a great event with a lot of networking, information gathering and some things to progress to. All in all, I came out feeling more confident knowing we are keeping pace with the industry in most aspects. From equipment and apparatus, PPE, maintaining facilities as well as improvements, better reporting systems, finding and researching revenue streams, addressing behavioral health, better medical screenings, strong relationships with partner agencies and a strong basin wide wildfire and fuels program are just some of the successes we have accomplished recently. Thank you for supporting the mission of the District and giving us the tools to do our jobs safely and more efficiently. We have a strong, knowledgeable and dedicated group of employees that can continue to build a progressive future at a reasonable, manageable and fiscally responsible pace. Some things we fall short compared to the industry is staffing and station replacement. We are looking for funding opportunities for these issues but there is a lot of competition for these awards. Funding opportunities are limited to grants and benefit assessments. One of the connections I made at the conference was with the FDAC, the Fire Districts Association of California. This group is more specific to special districts, I will be attending this conference November 13 and 14th in Sacramento. I am looking forward and hopeful to gain new ideas of maintaining and improving what we have and finding ways to meet our needs.

We are in the process of bringing on a new Firefighter/EMT to replace our resignation from a couple months ago. This hire will bring staffing back to the 22 Firefighters and help with some of the staffing shortages we are experiencing. After the employee finishes medical and background screening, we will announce the hiring. We are hoping to start orientation in a couple weeks and will recognize them at the December board meeting. I am happy to report we will be getting Engineer Anderson and FF/P Schnaible back this month, unfortunately we are still down a few employees due to injuries/medical. We are currently experiencing the spread of sickness, some testing positive for COVID putting further strain on the workforce. We have been able to maintain staffing to this point, staff has stepped up and covered all shifts.
